

# Fedora Kiosk Spin

Daniel Walsh  
Red Hat

# What is the kiosk spin

- Read Only/Appliance LiveDVD OS that can only access web pages.
  - No Password required.
  - Root account disabled.
  - Only user account is xguest
    - Access HTTP ports
    - No setuid
    - homedir/tmpdir created at login/destroyed at logout
    - No exec in homedir
    - No login if xguest process is running

# What can it be used for

- Libraries have shown interest, one is up in running.
- K-12 Schools
- DOD for dedicated Kiosk systems
- Other possibilities
  - Universities
  - Public Kiosk Sites
  - Office/Bank Kiosk Systems
  - POS Terminals
  - Etc

# Try it out
